Overview

This two-day course is intended for those who have, or are about to acquire, supervisory responsibilities. It provides supervisors with an understanding of health, safety, welfare and environmental issues, as well as their legal responsibilities relevant to their work activities. It will highlight the requirement to promote health and safety to supervise effectively.

This course will help supervisors to understand the problems of the industry, explain how health and safety law is structured, and how it applies to supervisors, identify how their supervisory role fits in with the management structure in controlling the site safely, carry out risk assessments and understand the need for method statements, carry out effective site inductions, toolbox talks and method statement briefings, monitor site activities effectively, understand the importance of timely intervention when bad practice is identified.

Entry Requirements

Delegates should hold or be about to hold the role of a supervisor. Delegates must be competent in English at site supervision level.

Assessment

The assessment will be an exam paper, delivery of a toolbox talk in the classroom, the completion of a case study exercise and trainer review. Delegates are expected to be interactive during the course.

The examination consists of 25 questions; 22 multiple choice questions and 3 short written questions and answers. There will be 4 safety critical questions on each paper that must be answered correctly to pass the exam.

The examination pass mark is 80% (24 out of 30).
